

## DevOps Engineer (f/m/d)

BENOCS GmbH

Berlin, Germany

**Are you a passionate, experienced developer that wants to contribute to the evolution of the Internet?**

We are a small team with big ambitions to improve Internet performance by improving how traffic behaves on Internet Provider Networks. If you are a creative problem-solver who wants to work with a world-class team, and enjoys learning new skills regularly, then we are interested in you!

### Your TASKS:

- You deploy and maintain infrastructure for us and our customers
- You operate and automate our distributed Linux based infrastructure
- You are responsible for developing and automating tools and IT processes
- You unify operation across diverse hardware and custom projects
- You support flawless operations of our production environment

### Our TECH STACK:

Languages: Python, Bash, Perl

Tools & Frameworks: Ansible/DebOps, GitLab/GitHub, VPN, LDAP, NFS, nginx, Docker, Ceph

Monitoring, Reporting & Alerting: Graylog, monit, Kibana, Elasticsearch, ElastAlert

Purpose-built tooling centered around Bash, Python and tmux

### Your QUALIFICATIONS:

- You have 3+ years of professional experience in Linux operation and security
- You have a strong background in automation tools (e. g. Ansible, Puppet, etc.)
- You have advanced knowledge of various scripting languages (e. g. Python, Bash, Perl, etc.)
- You have a solid understanding of automated network, VPN, firewall and daemon configuration
- You are a thoughtful, self-driven team player who collaborates effectively

### NICE-TO-HAVE:

- You have a good idea of internet topology and mechanisms behind internet transport
- You have knowledge of distributed, unreliable communication concepts and failovers
- You have a good understanding of distributed logging, monitoring and alerting

## Our BENEFITS:

**Learning Opportunities:** Lifelong learning is essential for us. We offer the opportunity to develop not only software, but also yourself!

**Flexible Working Hours:** We know you have a life outside of work, which is why we allow you work whenever it suits you as long as you are available during our core working hours.

**Home Office:** Need a couple days a week at home? We have adopted a hybrid working model that only requires you to come to the office a couple of times a week.

**Health Offers:** Your health is important to us. We offer free health checks, regular preventive medical checkups, seasonal flu vaccines, free beverages and fruits.

**Company Pension Scheme:** Be well positioned for the future - we offer a company pension scheme and pay monthly contributions.

**Virtual Stock Options:** Be part of a success story and benefit from the company's growth.

**JobRad:** Join our bike leasing program to get a new bicycle at a reduced cost.

**Shopping Discounts:** Products and services at a discount from numerous providers and partners.

## About BENOCS:

BENOCS - a groundbreaking B2B software-solution company that implements intelligent content traffic-steering and automated load balancing in very large IP networks to reduce network CapEx while improving quality. The rapid evolution of global internet content delivery towards more diverse and fluctuating network arrangements requires smart solutions that encompass this complexity and offer effective means of control. BENOCS offers the technologies to make this happen.

## Your APPLICATION:

Please email your CV, a cover letter, and any relevant reports and/or work references you may have to **jobs@benocs.com**.

*\*We are committed to a diverse workforce and strongly welcome all applications regardless of gender, nationality, ethnic origin, religion, disability or age.*
