### Our TECH STACK:

Code Base: JavaScript, HTML, TypeScript

Styling: CSS/SASS

Testing: Cypress, Jest

Tools & Frameworks: React.js, Blueprint.js, MobX, Docker, GitLab, GitLab CI/CD

### Your QUALIFICATIONS:

- You have proven work experience as a front-end developer
- You are familiar with frameworks like React/Redux/mobx/D3
- You have in-depth understanding of the entire web development process (design, development, and deployment)
- You understand and practice test-driven development
- You have a solid background in algorithms, data structures as well as run-time and resource complexity
- You are a thoughtful, self-driven team player who collaborates effectively

### NICE-TO-HAVE:

- You have solid knowledge and experience with Python and Django
- You have experience with User Experience Design
- You have knowledge of internet topology and mechanisms behind internet transport
- You have a good idea of network traffic behavior and possibilities of its visualization

## Our BENEFITS:

**Learning Opportunities:** Lifelong learning is essential for us. We offer the opportunity to develop not only software, but also yourself!

**Flexible Working Hours:** We know you have a life outside of work, which is why we allow you work whenever it suits you as long as you are available during our core working hours.

**Home Office:** Need a couple days a week at home? We have adopted a hybrid working model that only requires you to come from time to time.

**Health Offers:** Your health is important to us. We offer free health checks, regular preventive medical checkups, seasonal flu vaccines, free beverages and fruits.

**Company Pension Scheme:** Be well positioned for the future - we offer a company pension scheme and pay monthly contributions.

**Virtual Stock Options:** Be part of a success story and benefit from the company's growth.

**JobRad:** Join our bike leasing program to get a new bicycle at a reduced cost.

**Shopping Discounts:** Products and services at a discount from numerous providers and partners.

## About BENOCS:

BENOCS - a groundbreaking B2B software-solution company that implements intelligent content traffic-steering and automated load balancing in very large IP networks to reduce network CapEx while improving quality. The rapid evolution of global internet content delivery towards more diverse and fluctuating network arrangements requires smart solutions that encompass this complexity and offer effective means of control. BENOCS offers the technologies to make this happen.
