

(Linux) DevOps System Engineer (f/m/d)

BENOCS GmbH

Berlin, Germany

Are you a revolutionary that wants to contribute to the evolution of the Internet?

We are a small team with big ambitions to improve Internet performance by improving how traffic behaves on Internet Provider Networks. If you are a creative problem-solver, who wants to work with at world-class-team, and enjoys learning new skills regularly, then we are interested in you!

Your TASKS:

- You implement CI/CD best practices, Infrastructure as Code and automated IT processes
- You maintain, monitor and upgrade our physical and virtual server and network infrastructure, on- and off-site
- You evaluate and implement technical processes/scale out solutions to meet our growing business needs
- You manage user access control and permissions of our directory services
- You implement data protection and backup concepts

Our TECH STACK:

Languages: Bash, Python, yaml, jinja2

Operating System: Linux

Tools & Frameworks: Ansible, Kubernetes, Postfix, Dovecot, SQL, LDAP, nginx, Git, KVM, Bind9, PowerDNS, NFS, VPN, iptables

Your QUALIFICATIONS:

- 3+ years of professional experience in operating heterogeneous server farms
- Hands-on experience with architecture, implementation, and operation of a Linux based computing environment
- Experience in developing infrastructure as code using Ansible
- Solid understanding of Git including branching, merging, merge requests and code reviews
- Ability to prioritize and handle multiple tasks simultaneously and effectively
- Ability to think and work independently on large and complex tasks
- Scripting language knowledge is an advantage

Our BENEFITS:

Learning Opportunities: Lifelong learning is essential for us. We offer the opportunity to develop not only software, but also yourself!

Flexible Working Hours: We know you have a life outside of work, which is why we allow you work whenever it suits you as long as you are available during our core working hours.

Home Office: Need a couple days a week at home? We have adopted a hybrid working model that only requires you to come to the office a couple of times a week.

Health Offers: Your health is important to us. We offer free health checks, regular preventive medical checkups, seasonal flu vaccines, free beverages and fruits.

Company Pension Scheme: Be well positioned for the future - we offer a company pension scheme and pay monthly contributions.

Virtual Stock Options: Be part of a success story and benefit from the company's growth.

JobRad: Join our bike leasing program to get a new bicycle at a reduced cost.

Shopping Discounts: Products and services at a discount from numerous external providers and partners.

About BENOCS:

BENOCS - a groundbreaking B2B software-solution company that implements intelligent content traffic-steering and automated load balancing in very large IP networks to reduce network CapEx while improving quality. The rapid evolution of global internet content delivery towards more diverse and fluctuating network arrangements requires smart solutions that encompass this complexity and offer effective means of control. BENOCS offers the technologies to make this happen.

Your APPLICATION:

Please email your CV, a cover letter, and any relevant reports and/or work references you may have to **jobs@benocs.com**.

**We are committed to a diverse workforce and strongly welcome all applications regardless of gender, nationality, ethnic origin, religion, disability or age.*
